

Functional Analysis Summary

Moritz Konarski

December 2019

Information

This is my summary of the content of the course Functional Analysis at AUCA in the fall semester 2019 taught by professor Imanaliev

Contents

1	Metric Spaces	1
2	Integral Equations	1
3	Fourier Transform	1

1 Metric Spaces

Hello

2 Integral Equations

hello there hello there

3 Fourier Transform

hello there guys
